3. (1) The provisions of this Chapter and Chapter VI shall apply to all factories manufacturing any kind of sugar.

(2) The provisions of Chapters II and IV shall apply to factories:—

- (a) where sugar other than khandsari or palmyra is manufactured; and
- (b) where such sugar is manufactured in addition to khandsari or palmyra sugar or both.

In case (b), accounts shall be maintained separately for:—

- (i) sugar other than khandsari or palmyra;
- (ii) khandsari sugar; and
- (iii) palmyra sugar.

(3) The provisions of Chapters III and V shall apply to factories where khandsari or palmyra sugar or both are manufactured.

Explanation.—Where only khandari or palmyra sugar or both are manufactured at a factory during a particular period of the year, the provisions of Chapters III and V shall apply to such factory during that period.

CHAPTER II.

Factories producing, whether exclusively or not, sugar other than khandari or palmyra.

4. (1) The owner of a factory shall not produce, or cause or permit the production of, sugar in the factory for the first time after this Order comes into force without giving notice in writing to the Assistant Commissioner at least fifteen days before the production of sugar. Every such notice shall specify the nature of the raw materials used for the production of sugar.

(2) The owner of a factory engaged in the production of sugar when this Order comes into force shall, within seven days of the date of the coming into force thereof, give notice in writing to the Assistant Commissioner, specifying the nature of the raw materials used by him for the production of sugar.

(3) The owner of every factory shall give notice in writing to the Assistant Commissioner of his intention to stop or resume the production of sugar at least fifteen days before stopping or resuming such production, as the case may be.

(4) Whenever there is a change in the nature of any raw material or raw materials used, the owner of the factory shall give notice in writing to the Assistant Commissioner specifying the new raw material or raw materials used, at least fifteen days before making the change.

5. The owner of a factory shall not manufacture or cause or permit any other person to manufacture sugar from any material which has been mixed with palmyra sugar or any form of concentrated palmyra juice or syrup or any other product of the palmyra palm, unless he gives to the Supervising Officer notice of his intention to do so and agrees either to pay on the sugar so manufactured duty at the rates prescribed in section 3 (2) (ii) of the Act when it is issued from the factory for consumption or for the manufacture of any other commodity in or outside the factory or for export, or to remove the sugar so manufactured under such other conditions as may be prescribed under the Act or the Order.

6. All sugar produced in a factory shall before it is removed from the factory be put into bags in the presence of the Supervising Officer and weighed, so that each bag may contain such known quantity of sugar as the owner may require.

Each bag shall bear a distinguishing mark showing the kind and the quantity of sugar contained in it. Bags containing sugar of the same kind and with the same quantity in each shall be kept together in a separate lot, when they are stored in the factory.

7. Sugar shall be removed out of the factory only between 6 a.m. and 6 p.m., provided that the Supervising Officer may for sufficient reasons to be recorded in writing permit removal of sugar from the factory after 6 p.m. under such conditions as he may prescribe.

8. No sugar shall be issued from the factory for consumption, export or manufacture of any commodity in or outside the factory except in the presence of the Supervising Officer and except on presentation by the owner of an application in Form S-3 to the Supervising Officer and on obtaining the permission of such Officer on the Form. The Supervising Officer shall accord such permission only after making the necessary entries in Form S-1.

9. If the Supervising Officer has any reason to believe that any bag or bags containing sugar to be removed has or have been tampered with or if the owner desires to have any bag or bags reweighed the Supervising Officer shall cause such bag or bags to be reweighed in the presence of the owner and if the weight on check-weighment of such bag or bags differs from that found at the time when such bag or bags were filled with sugar, he shall take into account the net weight of such bag or bags as check-weighed for the assessment of duty.

10. Every application made and permission granted in Form S-3 shall be in triplicate. One copy (the original) shall be retained by the Supervising Officer. The second copy (the duplicate) shall accompany the consignment as far as the gate of the factory where it shall, before the consignment is taken out of the factory premises, be delivered by the owner or his servant accompanying the consignment to the Excise peon on guard at the gate. The third copy (the triplicate) shall be delivered to the owner. The Excise peon on guard at the gate shall on arrival of the consignment at the gate count the number of bags in the consignment and on satisfying himself that the number of bags is the same as that entered in the permit allow it to pass through the gate. The Excise peon on guard at the gate shall return the duplicate of the permit to the Supervising Officer with an endorsement that the number of bags has been checked and found to agree with that shown in the permit. If the Excise peon on guard finds that there is any difference between the number of bags contained in the consignment and the number shown in the permit, he shall not allow the consignment to pass through the gate, but shall report the matter to the Supervising Officer who shall immediately check the consignment himself and in the event of his finding any bag or bags in excess, take such action as may be necessary under the Act.

11. If there are two or more exits from a factory, consignments of sugar removed from the factory shall be taken out only through the main gate where an Excise peon is posted on guard.

12. After 6 p.m., or the closure of the factory for the day, whichever is earlier, all gates except the main gate shall be closed under lock and key by the owner.

13. Any of the rules in this Chapter may be relaxed by an order of the Commissioner in the case of a factory having a railway siding of its own.

CHAPTER III.

Control over issues of sugar from the factories engaged exclusively for the production of khandari or palmyra sugar.

14. In the case of a factory where only khandari sugar or palmyra sugar or both are manufactured and no resident officer is posted, the resident officer at the nearest sugar factory or such other officer as the Commissioner may appoint in this behalf, and the Distillery Inspector shall supervise the operations of the factory by paying surprise and occasional visits.

15. The owner of such factory shall give fifteen days' notice in writing of his intention to manufacture sugar or to stop or resume such manufacture, as the case may be.

CHAPTER IV.

Accounts to be maintained at factories producing, whether exclusively or not, sugar other than khandari or palmyra.

16. The Supervising Officer shall maintain a register in Form S-1, in which the quantity of sugar produced in, and the quantity removed from, the factory shall be entered daily in the appropriate column. A total shall be struck at the end of each month. The Supervising Officer shall submit a monthly extract of the totals in the register in Form S-1 to the Collector of the district together with the permits delivered at the gate as a check on the aforesaid extract and the owner's return in Form B and a copy of the extract aforesaid to the Assistant Commissioner. In addition to the aforesaid register, the Supervising Officer shall maintain a register in Form S-2 showing the monthly production and issues of sugar and the accounts relating to the payment of the duty.

17. The return in 'Form B' which the owner is required to submit monthly to the Collector of the district under clause 5 of the Order shall be delivered to the Supervising Officer on the 3rd of the month following that to which the return relates. On receipt of the return in 'Form B' the Supervising Officer shall check the entries in it with the totals of the entries for the month in the register in Form S-1 and if the entries in the return and the register are found to agree, submit the return to the Collector on the 5th of the following month with an extract of the totals of the entries in the register in Form S-1 and the permits delivered at the gate. In the event of any difference between the figures as entered in the return in 'Form B' and those entered in the S-1 register, the Supervising Officer shall call upon the owner to explain the difference and get the return reconciled before submitting it to the Collector.

18. (1) When the manufacture of dutiable sugar in a factory has stopped, the Commissioner may withdraw the Supervising Officer attached to the factory and appoint another officer to be in general charge of the factory. Before vacating office the Supervising Officer shall verify the stock of sugar as entered in Form S-1 and report the quantity in stock to the Collector. The owner may issue sugar at any time after giving intimation in Form S-3 of the quantity to be issued to the Collector and to the officer appointed to be in charge.

(2) Before manufacture is started again, the Supervising Officer appointed to the factory shall verify the balance of sugar in stock, to see that the total quantity issued, as intimated by the owner, is correct. If the difference between the quantity originally in stock when the Supervising Officer was withdrawn and that in stock when the new Supervising Officer takes charge exceeds the total quantity issued as intimated by the owner and the excess cannot be accounted for by wastage or otherwise, the owner shall be liable to pay duty on such excess.

CHAPTER V.

Accounts to be maintained at factories producing exclusively khandsari or palmyna sugar.

19. The owner of the factory where khandsari or palmyna sugar or both are exclusively produced shall maintain an account in Form S-4, in which the manufacture and sale of sugar shall be posted daily.

20. The owner shall forward the monthly return in Form B to the resident Supervising Officer of the nearest factory, or to such other officer as the Commissioner may depute for the purpose. The officer to whom the return is forwarded shall check it with the accounts maintained by the owner and if such officer finds that the return and the accounts agree, he shall make an endorsement to that effect and submit it to the Collector.

CHAPTER VI.

General

21. The owner of a factory shall maintain a register in Form S-5 of raw materials used and sugar manufactured in the factory.

22. No sugar shall be removed from the factory except in accordance with the procedure laid down in this Order.

23. If any sugar is removed by an employee at the factory in contravention of the conditions hereinbefore prescribed, the owner shall be held responsible for such removal and shall be liable to be dealt with according to the provisions of the Act and the Order as if he had removed the sugar himself.

24. The owner shall carry out all such orders as may be issued by the Commissioner, Assistant Commissioner or Supervising Officer to give effect to the provisions hereinbefore contained.

From a computational point of view, it is not difficult to calculate the \mathcal{H}_2 norm of a system. The \mathcal{H}_2 norm of a system is the square root of the sum of the eigenvalues of the controllability Gramian. The controllability Gramian is a symmetric positive semidefinite matrix that can be calculated by solving the Lyapunov equation $A^T P + P A = -B B^T$, where P is the controllability Gramian. The \mathcal{H}_2 norm of a system is then given by $\sqrt{\text{trace}(P)}$.
